Daddy Day Care Weekend

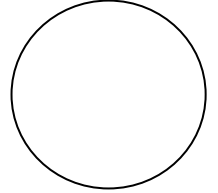

June 14th and 15th, 2019

The Krewe of Dionysus takes great pride in our community. We are not only a Mardi Gras parade organization, but we are also a group of men with big hearts and a can do spirit dedicated to the children of Slidell. The Krewe is comprised of Fathers, Sons, Brothers, Cousins, Neighbors and Friends creating the BROTHERHOOD of the Krewe of Dionysus. We're All united in one goal which is "Putting Smiles on Children's Faces."

For the last twelve years, the Krewe has chosen a young man to be our parade's GRAND MARSHAL. These young men have faced life's challenges head on; it is this spirit that inspires the Krewe in everything we do. The courage of these young men and their families is hard for most to comprehend but not the Krewe. This is why we rally behind him and his family to lead the Krewe on parade day.

The Krewe also supports several non-profit organizations that provide area children much needed support. They are, "The Cool Doctor Foundation," "Riley's Bikes" and "Slidell Veterans Festival." Additionally, the Krewe has collaborated with the Slidell Police Department and St. Tammany Parish Sheriff's Office providing toys for their Christmas Toy Drives. The Krewe also shows our undying gratitude to our military both active and retired along with first responders. The Krewe is honored to have these individuals ride through the streets of Slidell with us on a float dedicated only to them.

We pledge to do everything we can for the children in our great city as they are ultimately our future!

There is no feeling, no reward, no smile as amazing as seeing a child with Cerebral Palsy when they ride a bike for the first time. There is a sparkle in their eyes and tears in their mother's eyes as they both laugh and smile at their accomplishment. This is the freedom a child feels when they have the mobility to ride a bike just like any other child. Riley's Bikes is giving children with special needs the opportunity to be KIDS.

Hypovitaminosis D (Low Vitamin D levels) is prevalent in children with physical and learning disabilities. Adequate vitamin D levels are essential for normal skeletal development and mineralization. This is particularly important in children with cerebral palsy or other neuromuscular disorders who are at an increased risk of osteoporosis. One of the greatest sources for Vitamin D in children is the sun. Children with disabilities are more likely to spend more time indoors. An adaptive bike gives a child an opportunity to enjoy an independent outdoor activity increasing their exposure to the sun.

Adaptive bikes provide children with special needs the ability to be mobile, have fun, and to participate with other children in a social equalizing environment. The bikes are customized for each individual child to ensure safety, maximum therapeutic support, and growth considerations. These bikes provide additional and continued therapeutic activity outside of their normal scheduled therapies.

Riley's Bikes is an organization comprised completely of volunteers and financed solely through generous donations of our families, friends, supporters, and sponsors. There is no donation that is too small. Every penny goes to providing a bike for a special needs child, or towards the maintenance of an adaptive bike. We also accept used adaptive bikes, these bikes are refurbished and then donated to centers and camps that provide services to special needs children. Riley's Bikes makes a commitment to provide a well-built customized bike that can be enjoyed for years. In addition, Riley's Bikes will ensure that each family will receive assistance to maintain the bike in working order.

We appreciate and value your support. If more information is needed, please contact us at rileysbikes@hotmail.com, ekramar@charter.net or by calling 985.774.6694. Don't forget to follow us on Facebook for updates on our upcoming fundraising and bike presentation events!
